CERTIFICATE IV IN BUILDING AND CONSTRUCTION (BUILDING)

BUILDER, CONSTRUCTION MANAGER

TRADE BUSINESS OWNER

BUILDERS ACADEMY AUSTRALIA

A part of Simonds Group

CPC40110 CERTIFICATE IV IN BUILDING AND CONSTRUCTION (BUILDING)

Career outcomes and pathways

If you are an aspiring or working tradesperson, here is your foundation for success. This is your first step towards starting your own building business and preparing for the Building Practitioners Board registration.

This nationally recognised qualification covers all the details on how to plan, prepare and manage residential construction sites from start to finish. Examine the principles, techniques and regulations of the Australian building and construction industry.

This qualification can be combined with the BSB41415 Certificate IV in Work Health and Safety. This additional qualification will prepare you to implement and monitor risk prevention measures, respond to emergencies, and evaluate policies and procedures.

This Certificate can assist you in pursuing a career in a supervisory role such as construction supervisor, planner, co-ordinator or manager. After completing your Certificate you may decide to further your training with CPC50210 Diploma of Building and Construction (Building).

What will you learn?

Our courses have been divided into clusters of units that help you develop detailed skills and knowledge around each function of building & construction.

Cluster Focus	Unit Code	Unit Name
Read Plans and Specifications	CPCCBC4012B	Read and interpret plans and specifications
Construction Workplace Safety	CPCCBC4002A	Manage occupational health and safety in the building and construction workplace
Legal Requirements and Contracts	CPCCBC4009B	Apply legal requirements to building and construction projects
	CPCCBC4003A	Select and prepare a construction contract
	CPCCBC4024A	Resolve business disputes
Residential and Commercial low Rise Building Structures	CPCCBC4001A	Apply building codes and standards to the construction process for low rise building projects
	CPCCBC4010B	Apply structural principles to residential low rise constructions
	CPCCBC4011B	Apply structural principles to commercial low rise constructions
	CPCCBC4020A	Build thermally efficient and sustainable structures
Business Planning	BSBSMB404A	Undertake small business planning
	BSBMGT515A	Manage operational plans
	BSBSMB406A	Manage small business finances
Construction Planning	CPCCBC4007A	Plan building or construction work
	CPCCBC4004A	Identify and produce estimated costs for building and construction projects
	CPCCBC4005A	Produce labour and material schedules for ordering
	CPCCBC4006B	Select, procure and store construction materials for low rise projects
On-Site Supervision	CPCCBC4008B	Conduct on-site supervision of building and construction projects

STUDY OPTIONS & LOCATIONS

Our Certificate IV courses are held 2 nights per week part time and run for between 28-35 weeks depending on your level of experience in the industry. We know that location is important so we have classes that are close to home and work, give us a call and ask us about the closest course to you.

FEES AND PAYMENTS

For our full fee list please visit www.buildersacademy.com.au

If you meet eligibility criteria the cost of your course may be subsidised by State or Commonwealth Government funding – if you aren't eligible, you can still enrol in the course as a full fee paying student. We have several payment options available, give us a call to discuss the best option for you.
