## COURSE INFORMATION

RII30815

# CERTIFICATE III CIVIL CONSTRUCTION PLANT OPERATIONS

If you're working in or want to work in the civil construction industry, RII30815 Certificate III in Civil Construction Plant Operations will develop your skills across a range of tools and equipment, and provide valuable knowledge to help you progress.

# IS THIS COURSE FOR YOU?

RII30815 Certificate III in Civil Construction Plant Operations covers a range of skills in areas such as plant operations and equipment, hand and power tools, basic levelling and excavation. You will also learn how to work safely on a construction site.

After successfully completing this course you will have a solid foundation of the skills and knowledge needed to work in the civil construction industry.

## Enrolment checklist

- ☐ You are over 16 years of age (if you're under 18, your parent or guardian must sign the enrolment form on your behalf)
- ☐ You are already working within Civil Construction and want to gain additional skills and knowledge or you would like to work in Civil Construction
- ☐ Your language, literacy and numeracy will be evaluated to identify any support requirements

## How long will it take?

This course is held 3 days per week and runs for 26 weeks.

## Is the course subsidised?

If you meet the eligibility criteria the cost of your course may be delivered with Victorian and Commonwealth Government funding. If you aren't eligible, you can still enrol in the course as a full fee paying student. We have several payment options available. Give us a call to discuss the best option for you. For our full fee list please visit [www.buildersacademy.com.au](http://www.buildersacademy.com.au)

## Future pathways

This qualification reflects the role of a skilled operator working with civil construction plant including excavator, skid steer, front end loader, backhoe and dozer.

## Units

Participants need to complete 19 units of competency consisting of 14 core units plus 5 elective units. Builders Academy have added an extra 2 elective supernumerary units to the program. The supernumerary units have been selected to maximise vocational outcomes upon completion.

Students who do not fully complete this programme, but complete enough units to satisfy the requirements of the qualification are still entitled to receive the full qualification.

## REAL BENEFITS

- Choose your career path
- Gain a nationally accredited qualification and industry knowledge
- Learn new skills and build on your existing skills
- Meet new people and make potential business contacts
- Gain confidence and improve your employment opportunities

V20170119

Unit Code	Core Unit Name
RIIBEF201D	Plan and organise work
RIICCM201D	Carry out measurements and calculations
RIICCM202D	Identify, locate and protect underground services
RIICCM203D	Read and interpret plans and specifications
RIICCM205E	Carry out manual excavation
RIICCM206D	Support plant operations
RIICCM207D	Spread and compact materials manually
RIICCM208D	Carry out basic levelling
RIICOM201D	Communicate in the workplace
RIISAM201D	Handle resources and infrastructure materials and safely dispose of non toxic materials
RIISAM203D	Use hand and power tools
RIISAM204D	Operate small plant and equipment
RIIWS201D	Work safely and follow WHS policies and procedures
RIIWMG203D	Drain and dewater civil construction site

Unit Code	Elective Units
RIIMPO320E	Conduct civil construction excavator operations
RIIMPO318E	Conduct skid steer loader operations
RIIMPO321E	Conduct civil construction wheeled front end loader operations
RIIMPO319D	Conduct backhoe/loader operations
RIIMPO323D	Conduct civil construction dozer operations
CPCCWHS1001	Prepare to work safely in the construction industry*
RIIWS205D	Control traffic with stop-slow bat**

\*Supernumerary unit only delivered if student does not hold relevant state or territory Constructional Safety Induction card

\*\* The supernumerary unit 'Control the traffic stop-slow bat' has been selected as this is a common unit required for civil construction when working on sites that require traffic to be directed or plant machinery to be directed on a site.
